PLACE & DATE ACQ [redacted] 25X1

THIS IS UNEVALUATED INFORMATION

[redacted] 25X1

1. A hard surface, all weather road [#924] which is over two lanes wide runs from Alba-Iulia northward to Turda, and from Alba-Iulia southeast to Sibiu. Another hard surface, all weather road [#924] runs from Alba-Iulia southwest to Cugir and Orastie. From Orastie, the hard surface, all weather road [#924] runs westward to Lugoj and Arad.

2. The above roads are designed for heavy usage. The roads have a good solid foundation and are asphalt surfaced. A minimum maintenance is required on these roads. The roads are considered to be first class highways in Rumania. The roads run through hilly and rocky terrain.

3. A loose surface, graded, all weather road [#903] runs from Sebes southward to Capalna. Another loose surface, graded, all weather road [#903] runs from Sebes northeast to Vingard. The same type of loose surface, graded, all weather road [#903] runs from Alba-Iulia eastward to Blaj. The loose surface roads are over two lanes wide and are designed for heavy usage. The roads are gravel surfaced with sand, and are graded periodically.

4. A loose surface, all weather road [#909] which is over one lane wide runs from Geoagiu northeast to Totoiul. It runs parallel to the Mures River which flows northeast to southwest. The loose surface road can absorb heavy usage.

5. A number of loose surface, dry weather dirt roads [#935] run in the vicinity of Langram, Ciora, Drambar and Rahaul. These villages are located around Alba-Iulia and Sebes. The dirt roads are over one lane in width. Because of the natural foundation of the roads which consist of rock, gravel and sand, they occasionally are able to bear heavy traffic. Farmers and villagers resurface and grade the dirt roads.
